

Fayez Ahmad Mrouj

International Physics Educator

Irbid, Jordan • fayez.mrouj@gmail.com • +962 78 8 287 286
fayez.mrouj@live.com • +962 78 0 084 600 • Arabic (Native) • English (IELTS B2)

PROFESSIONAL SUMMARY

Physics educator with 28+ years of experience teaching Physics and Science across secondary and pre-university levels in Jordan and the United Arab Emirates. Career spans five institutions — Ministry of Education Jordan, MOE UAE, Abu Dhabi Education Council, Institute of Applied Technology, and Emirates Schools Establishment. Specialist in student-centred and inquiry-based instruction, with deep, certified expertise in educational technology, smart learning platforms (Alef, Smart Learning Gateway), hybrid and distance learning, digital assessment, and the integration of AI tools — including Prompt Engineering and ChatGPT — into classroom practice. Completed 100+ professional development courses; most recent in November 2025. Bilingual in Arabic and English (IELTS Academic, CEFR B2). Seeking an international Physics teaching role where rigour, technology, and human respect meet.

CORE COMPETENCIES

Physics Education	Science Education	STEM Education	Educational Technology
Curriculum Planning	Assessment Design	Classroom Management	Distance Learning
Hybrid Learning	Smart Learning	AI in Education	Student Mentoring

PROFESSIONAL EXPERIENCE

Physics & Science Teacher • CURRENT Aug 2022 — Present
Ministry of Education — Jordan
Irbid, Jordan

- Returned to Jordan bringing smart-learning, hybrid-teaching, and AI-literacy practices developed across 16 years in the UAE.
- Teaches Physics and Science at the secondary level in Jordanian public schools.
- Mentors colleagues on educational-technology adoption and AI-integrated lesson design.
- Continues active professional development — most recent certifications in November 2025.

Physics & Science Teacher Aug 2015 — Jul 2021
Emirates Schools Establishment (ESE)
United Arab Emirates

- Delivered hybrid and distance learning throughout COVID-19 using Microsoft Teams, LMS, and the Alef platform.
- Power user of the Alef Platform across inquiry, vocabulary, exam-preparation, and metacognition modules.
- Earned 80+ professional development certifications during this period — including Prompt Engineering, ChatGPT in Smart Learning, Advanced Smart Learning (Levels 1 & 2), and Smart Learning Gateway (Basic + Intermediate).
- Began integrating AI tools into lesson planning, differentiation, and assessment design.

Physics & Science Teacher Sep 2011 — Jul 2012
Institute of Applied Technology (IAT)
United Arab Emirates

- Taught Physics in a STEM-oriented, applied-technology institutional culture.
- Connected Physics instruction to engineering and real-world applications.
- Strengthened project- and problem-based teaching strategies.

Physics & Science Teacher

Aug 2009 — Aug 2011

Abu Dhabi Education Council (ADEC)

Abu Dhabi, UAE

- Implemented ADEC's student-centred learning framework during a major pedagogical reform.
- Adopted inquiry- and activity-based teaching strategies aligned with national reform goals.
- Participated in intensive professional development on modern teaching methodologies.

Physics & Science Teacher

Aug 2004 — Aug 2009

Ministry of Education — UAE

United Arab Emirates

- Five years teaching in the UAE public school system — first sustained exposure to a multicultural, multilingual student body.
- Engaged with early UAE educational reform initiatives.
- Delivered bilingual classroom instruction in Arabic and English.

Physics & Science Teacher

Jan 1996 — Aug 2004

Ministry of Education — Jordan

Jordan

- Eight years teaching Physics and Science in Jordanian public schools — the foundation of my career.
- Built lesson-planning, assessment, and classroom-management instincts still in use today.
- Mentored new teachers informally as the senior Physics teacher.

EDUCATION

Bachelor of Science in Physics

1996

Yarmouk University · Irbid, Jordan · 1996

KEY SKILLS

Teaching & Pedagogy: Advanced Physics Instruction (Secondary & Pre-University); Simplifying Complex Concepts; Lesson Planning & Curriculum Design; Active Learning & Inquiry Strategies; Differentiated Instruction; Student Engagement

Communication: Bilingual Delivery (Arabic / English); Presentation & Public Speaking; Parent-Teacher Communication; Scientific Explanation in Two Languages; Academic Advising

Leadership & Collaboration: Teamwork & Professional Collaboration; Influential & Digital Leadership; Mentoring Colleagues; Kaizen — Continuous Improvement

Technology: Smart Learning Gateway (LMS); Alef Platform; Microsoft Teams / Distance Learning; Swift Assess; Microsoft Office Suite; Adobe Photoshop; CorelDRAW; Prompt Engineering & ChatGPT in Education

Assessment & Evaluation: Question Banks & Test Design; Electronic & Online Assessment; Assessment-for-Learning (AfL); Data-Driven Classroom Decisions

Professional Thinking: Analytical & Critical Thinking; Problem Solving; Time Management & Organisation; Adaptability in Multicultural Settings; Self-Motivated Continuous Learning

TECHNOLOGY SKILLS

Microsoft Office — Word · PowerPoint · Excel · Teams — daily teaching workflow

LMS / Smart Learning Gateway — Basic + Intermediate certified; daily use

Alef Platform — Power user — inquiry, vocabulary, exam-prep, metacognition

ICDL — International Computer Driving License — certified

Adobe Photoshop + CorelDRAW — Graphic design for instructional materials

Educational Technology — Principles, strategies, and applications — full course certified

Digital Assessment — Swift Assess; electronic exams; online evaluation

AI Tools — Prompt Engineering; ChatGPT for Smart Learning — certified

DIGITAL PRESENCE & EDUCATIONAL PRODUCTS

Beyond the classroom — products and channels I have designed and built myself.

Interactive Physics Platform

<https://interactive-physics-platform.vercel.app/>

A full interactive learning platform I designed and built for Physics students in Grades 9 and 10 — aligned with the official curriculum. Includes units, lessons, formulas, worked examples, and interactive quizzes.

Physics & Science YouTube Channel

<https://www.youtube.com/@FayezMrouj>

A dedicated channel where I publish Physics and Science explainer videos — making difficult concepts visible, step by step, for students and fellow educators.

Physics & Math Facebook Page

<https://www.facebook.com/PhyAndMath>

A community page dedicated to Physics and Mathematics — sharing bite-size explanations, problem-solving tips, and classroom resources with students, parents, and the wider learning community.

Personal Portfolio Website

<https://fayez-mrouj-portfolio.vercel.app>

This professional portfolio — showcasing 28+ years of teaching experience, certifications, and educational innovation.

TEACHING PHILOSOPHY

My classroom is built around three convictions: that Physics is a way of seeing the world, not a set of formulas to memorise; that technology, used with intention, deepens understanding rather than distracting from it; and that the teacher's role is to design experiences in which students think, question, and discover for themselves. I use student-centred, inquiry-based, and project-based strategies, supported by continuous assessment and the right technology at the right moment.

PROFESSIONAL CERTIFICATIONS

100+ professional development courses completed. Selection below grouped by domain. Full certificate scans available on request.

Language: IELTS Academic (CEFR B2, Overall Band 5.5)

AI in Education: Prompt Engineering in Artificial Intelligence (2024); ChatGPT in Smart Learning (2023)

Smart Learning: Advanced Smart Learning 1 & 2; Smart Learning Gateway Basic + Intermediate; Practical Applications in Smart Learning; The Teacher's Role in Smart Learning; Communication in Smart Learning

Alef Platform: Using Inquiry with Alef; Teaching Academic Vocabulary with Alef; Successful Exam Preparation with Alef; Enhancing Thinking Skills with Alef; Learning by Doing on Alef

Distance Learning: Implementing Distance Learning; Designing Learning for Distance Learning; Be an Online Tutor in 24 Hours; Online Evaluation of Distance Learning; Tools Used in Distance Learning

Hybrid Learning: Blended Station Teaching; Agile Transition to Hybrid Learning; Teaching Physics in a Hybrid Environment

Assessment: Electronic Assessments; Swift Assess — Designing Electronic Tests; Assessment for Learning; Using Evaluation Effectively; Data-Driven Classroom

Pedagogy: Critical Thinking Skills; Classroom Management Fundamentals; Classroom Management — Irtiqaa; Differentiated Instruction; Design Thinking for Effective Learning; Teaching for Effective Learning; Empowering Students with Future Skills; Scaffolding Strategies

Technology: ICDL; Intel Teach — Education for the Future; Educational Technology — Principles, Strategies & Applications; iPad Classroom Apps for Educators; E-Maturity

Leadership: Digital Leadership; Influential Leadership; Kaizen — Continuous Improvement Methodology

Psychology: Educational Psychology (UNRWA / UNESCO); Emotional Intelligence in Education; Psychosocial Learning

Other: Canadian Teachers Federation — Methods of Teaching Science; Digital Citizenship; Safe Return to Schools; Specialized Science Training (Elite Science c3)
